

## What's New with William:

William has been busy during quarantine!

- Started potty training
- Graduated from Physical Therapy
- Exploring new playgrounds and splashpads
- Learning to communicate on an AAC Device (aka an iPad with an app for him to touch buttons to communicate)

This fall he will start the Early Childhood Special Education program through ISD 196 and transition to the next classroom at daycare (+ turns 3 on Sept 3<sup>rd</sup>)! We are going to check in with neurology on any new seizure activity and continue to focus on his fine/gross motor and communication skills. He continues to impress us with his ability to learn, persist, and keep a smile on his face! #DisabilityDoesNotMeanInability

## 180 Will.i.Can Shirts Sold!

Represented across 6 states + South Korea!

## In the AS Community:

- ✓ 3 Active Clinical Trials - Check out the latest [AS Therapeutic Pipeline](#)
- ✓ Be inspired by the Angelman Syndrome Foundation's [Wall of Determination!](#)

## Fact of the Month:

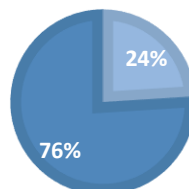

Actor Colin Farrell's son has Angelman Syndrome and he is a huge supporter of the Foundation for Angelman Syndrome Therapeutics (FAST) – [watch](#) him talk about AS on ELLEN
